Homemade Fig Preserves

We make the finest homemade fig preserves from the figs we grow here on the farm. Our recipe gives you delicious sweet fig preserves just like your grandmother used to make. We use whole figs and pure cane sugar with no preservatives for our product. We do not puree' or chop the figs in the process. Our preserves are great over toast, biscuits or waffles for breakfast. They are also a great dessert topping for ice cream or cake. Fig preserves make great gifts that show you have taken time to select a unique gift.

We grow several different varieties of figs including Brown Turkey, Celeste, Texas Everbearing, LSU Gold, LSU Purple, Kadota, Ische,

Alma, Black Jack, Petite Negronne,

LSU Hollier, Black Mission, Strawberry and several unnamed varieties. We make fig preserves with the figs of standard varieties in season and make limited quantities of preserves of some of the other varieties as fruit production permits.

Our standard fig preserves are available by mail. The prices are as follows:

One pint fig preserves . . . \$7.99
Shipping and packaging for the first pint . . . \$8.00
Shipping for each additional pint . . . \$2.00

We accept payment by PayPal, check or money order.
Fig preserves sold out until Summer 2005

Due to difficulties shipping the delicate fig fruits we are unable to ship fresh figs.
