Soft Fruits > Figs

Easy to grow on a sunny, south facing wall, or in a cold greenhouse. Fruits in August/September and prefers a poor soil with added rubble. Brownish-purple, large fruits that are very flavourful. All varieties grow well in containers and are self fertile.

This year we are pleased to offer you some extra varieties to the well known Brown Turkey and Brunswick. The following are all popular on the continent and bear luscious fruits with the most delicious flavour! Large plants supplied.

Varieties and Pricing

BROWN TURKEY

Reliable and the most often grown variety, Brownish-red fruits with an almost blue bloom. Ripening August to September, the large fruits have a red flesh that is very rich and sweet. Hardy and prolific

[Full Details >>](#)

BRUNSWICK

Very large fruits that are sweet and rich. A green-yellow, brown flushed skin. Hardy and moderate cropping, ripening mid August.

[Full Details >>](#)

WHITE MARSEILLES

An almost transparent flesh that is very sweet and rich. Large, pear-shaped fruits that are pale green to white and ripen in August and September. Hardy and reliable, always cropping well.
