## □ Desert King Fig

**Only available at the nursery** - [check availability](#)

Ripens in late July. Seems to be the most reliable and hardiest fig for the Northwest. Green skin with strawberry flesh. Delicious fresh and good for drying.

**\$19.95 - # fcdk**

### Fig Notes

- Hardy to Zone 7
- Older fig trees are hardy to 10oF
- Best in warm, protected sites
- Try wrapping the fig trunk with closed cell pipe insulation each winter
- For more information on growing figs in the Northwest, go to our [Growing Tips Page](#)
