California Fig Farmers

Black Mission fig orchard

We at Passion Fruit Farms are third generation California Fig Farmers. My grandfather, Mauro Simone (1893-1953) planted and farmed many of the first fig orchards in the San Joaquin Valley and was a true pioneer in the fresh and dry fig industry.

Although many things have changed since the decades grandpa did the farming, one thing does remain the same, we continue to take pride in bringing only the highest quality fresh figs from our family to yours.

Black Mission, Canyonaria, and Kadota Figs are the different California varieties we grow and ship to our customers worldwide (12/1 pint baskets (12lbs), pantas (8 lbs) and 1/2 pantas (4 lbs)). We can accommodate all sales from one carton to entire load lots. We hope if you are looking for fresh figs, you will look no further. Call Passion Fruit Farms Today!
