

Conadria Fig (*ficus carica*)
Large fruit. Light green skin. Flesh whitish-strawberry, flavor sweet and mild.
Good for table use and drying. Resistant to spoilage. Good white fig for hot areas
and will take desert winter chill. Vigorous long-lived tree.

These photo galleries have been provided to allow Nurseries and other plant enthusiasts obtain quality photos for your websites and printed publications. Only you know the look and feel you want to obtain, so it is best that you select the photos that work best for your application as opposed to a L.E. Cooke Co staff person choosing for you. Select the photo, click on "buy this photo" then select "Downloads". There is a nominal cost for the file to support this website.
